

# ElectroCute

Are you ready to build ?

## Introduction

Do you have the spark in you that makes you stand out?.Then come showcase your talent at RS'15 and participate in the most happening hardware hackathon in the town. ElectroCute is a day long hardware hackathon in which teams come together to make awesome things happen!

## Event Details

The event starts on 07th March with participants submitting their proposals along with the list of components to the jury. The selected proposals will then be called onsite for a fun filled 24 hour long event. You are allowed to bring in your own components provided they are verified by our team.

## Team size

Come along with your team or interact with lone wolfs onsite and form a wolfpack ! Ideally a team should consist of a hardware guy, the software geek and a tinkerer. Maximum team size would be restricted to 4(four).

## Prizes and Judging

The prizes are judged on three categories : **Innovation**-How innovative and novel your prototype is and what is the **Market Scope** of your product and the **Jury reviews**. Cash prizes upto 10k to be won and the best team bags a summer internship offer from a core Electronics company.
